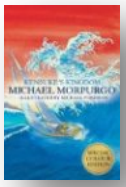
Our New Creative Learning Journey in Year 6.....

Shipwrecked!

LITERACY, COMMUNICATION AND LANGUAGE

This half term our Power of Reading book will be Kensuke's Kingdom by Michael Morpurgo. It is a tale of a boy who becomes lost on a desert island.



We will be focusing our writing tasks on this subject and will be focusing on the children's key writing skills.

MATHEMATICS AND COMPUTING

During this half term, we will be focusing on the children's understanding of number including decimals to 3 decimal places. This will include reading, writing, ordering and comparing the numbers. We will then ensure the children can calculate efficiently all four operations. We will also explore a variety of problem solving contexts and will focus on developing the children's reasoning skills. There is a big push this half term to learn our times tables, please take the opportunity to practise as much as possible at home.

UNDERSTANDING THE WORLD

We will be investigating how people can survive in extreme circumstances and learn what the body needs and how key systems work. We will also research famous shipwrecks and explorers.

EXPRESSIVE ARTS AND DESIGN

In this area the children will find out more about the artist Hokusai and create art in his style. We will use a mix of media to create our interpretations and use Japanese script to add authenticity.

PHYSICAL EDUCATION

We are exploring invasion games, learning how to work as a team and develop ball skills. Please remember to have a named PE kit at school all week.

PSHE AND RELIGIOUS EDUCATION

We will be focusing on team work involving desert island scenarios. R Time will play a key role in helping children to continue to develop their awareness of others.
