

# INTERNET AND SOCIAL MEDIA POLICY 2014-2015

The Lionwood Schools' Federation

Written by Selene Sawyer September 2014

Reviewed by the Full Governing Body February 5<sup>th</sup> 2015

Signed:

Chair of Governors

Date:

The Lionwood Schools' Federation is committed to providing a full and efficient education to all pupils and embraces the concept of equal opportunities for all.

We will endeavour to provide an environment where all pupils, parents, staff, governors and visitors feel valued and welcome.

## **1. Introduction**

The use of the internet, emails and social networking sites has grown significantly and has vastly increased opportunities for teaching and learning. However, abuse of this technology, in terms of inappropriate use, has seen a significant increase in the number of disciplinary cases. This model policy is written to apply to all employees and volunteers (including governors) in the school/academy. It is designed to form part of the school/academy's overall e-safety framework. The purpose of this policy is to ensure that:

- pupils and employees are safeguarded
- the schools are not exposed to legal risks
- the reputation of the schools is not adversely affected by inappropriate use
- school employees have clear guidelines on what they can and cannot do to keep themselves safe and protected against allegations
- Headteachers / Principals are able to manage conduct effectively

## **Equal Opportunities and Scope**

The Lionwood Schools Federation expects employees and volunteers working in either school to adhere to this policy in line with the school's obligations under equality legislation. The Executive Headteacher must ensure that all reasonable adjustments or supportive measures are considered to allow equality of access and opportunity regardless of age, gender, ethnicity, sexual orientation, disability, faith or religion, gender identity, pregnancy or marital status.

This policy should be read in conjunction with, and have due regard, to:

- The NCC E- Safety policy
- The NCC E-Safety toolkit
- The NCC ICT code of conduct for staff, governors and visitors
- The School Teachers Pay and Conditions Document (professional duties and national standards (weblink can be found on Schools' PeopleNet in the 'Pay' section).
- Employee discipline guidelines on conduct for employees (G303e) on Schools' PeopleNet
- Guidance for Safer Working Practice for Adults who work with Children and Young People in Education Settings (weblink can be found on

Schools' PeopleNet in the 'Standards of conduct and behaviour' section).

## **2. Internet use**

The internet is a valuable resource for teaching and learning and is used regularly in schools and academies. However, it can also present a high level of risk if it is abused or if safe practices are not adopted.

The Lionwood Schools Federation has advised employees not to use school equipment to access the internet for private purposes unless they have permission from the Executive Headteacher. Employees should be made aware that the network and inappropriate use of the internet is closely monitored and individual usage can be traced. Inappropriate use of these facilities may constitute a criminal or disciplinary offence.

Further advice and guidance regarding what is appropriate use of the internet is available in the ICT code of conduct, this can be found within the e-safety pages of Norfolk Schools. Alternatively if employees or managers are unsure of what they can and cannot do they can seek advice from the Online Safety Helpline email: [helpline@saferinternet.org.uk](mailto:helpline@saferinternet.org.uk) or call 0844 3814772.

## **3. Email use**

- What is written in an email may have to be released under the Data Protection Act or the Freedom of Information Act. Do not include information that may cause embarrassment to you or the school/academy, maintain professionalism at all times.
- Always double-check that the email has been addressed to the correct recipient(s).
- If the e-mail concerns an individual, do not name them in the 'subject field'.
- Employee to pupil email communication must only take place via a school/academy email account or from within the learning platform.
- Employees may only use approved e-mail accounts on the school system

Further advice and guidance regarding safe use of emails is available in the E-Safety toolkit. This can be found by typing 'e-safety' into the search function on Norfolk Schools.

## **4. Data protection, freedom of information and copyright**

Employees should remain aware of their data protection and freedom of information obligations. Further information can be found on Norfolk Schools in the Freedom of information and data protection sections.

Employees should not copy and paste any images or text from or make links to images on other sites on the internet unless the other site specifically says that the images and/or text have been copyright cleared for use in that purpose.

Consideration should be given to what is being posted with regards to:

- is the information being posted in the public domain?
- has permission been granted to publicise it from the person who created it?
- is the person who created it aware that the material is going to be made available on the internet?

## **5. Social networking**

Social media is the term commonly used for websites which allow people to interact with each other in some way (social networking) – by sharing information, opinions, knowledge and interests. Social media is part of many people's day to day lives. The following information has been put together for the benefit of employees to help them understand what may be deemed appropriate or inappropriate both inside and outside of work.

Social media is another form of communication and is not necessarily private. Employees should consider if it would not be said to a current or future colleague or parent, pupil or manager then it should not be published on a social networking site, whether this is a school/academy managed site or a personal one.

Online conduct should be as exemplary as offline conduct. Employees and volunteers must have regard to the fact that anything that is said on the internet could at some point be made public.

The school/academy recognises that social networking sites, websites and blogs provide a useful tool for communication and learning and are accessed widely. However the safeguarding of pupils and employees is of paramount importance, adults should lead by example and set standards of behaviour. Therefore:

- 5.1. Safeguarding of pupils and employees is the responsibility of all employees and this should also be taken into consideration when using personal social networking sites inside and outside of the school/academy. Employees should not link their own personal social networking sites to anything related to the school/academy.
- 5.2. Employees are advised not to communicate with pupils or accept pupils as friends on social network sites using their personal systems and equipment. Where a member of staff is related to a pupil the school/academy should be made aware, if they are not already, and consideration given to whether any safeguards need to be put in place. Employees should also consider carefully the implications of befriending parents, carers or ex-pupils as contacts on social networking sites.
- 5.3. Any communication with pupils should take place within clear and explicit boundaries

- 5.4. If employees use personal social networking sites they should not publish specific and detailed public thoughts or post anything that could bring the school/academy into disrepute.
- 5.5. Employees must not place inappropriate photographs on any social network space and must ensure that background detail (e.g. house number, street name, school/academy) cannot identify personal/employment details about them.
- 5.6. Official blogs, sites or wikis must be password protected and overseen and sanctioned by the school/academy.
- 5.7. Contact should only be made with pupils for professional reasons via professional spaces set up and run by the school/academy. If professional spaces are set up steps should be taken to ensure the users of the space are not put at risk e.g. privacy settings, data protection and data security. Permission should be sought from the Headteacher/Principal and the parents/guardians of pupils to communicate in this way.
- 5.8. Employees are advised not to run social network spaces for pupil use on a personal basis. If social networking is used for supporting pupils with coursework, professional spaces should be created by employees and pupils as in paragraph 5.7 above.
- 5.9. Employees are advised not to use or access the social networking sites of pupils, without due reason e.g. safeguarding purposes. However, this may not be possible to achieve if the situation in 5.2 applies.
- 5.10. If an employee feels they are a victim of cyberbullying they should report it via the appropriate channels, please see below.

If employees or managers need to seek advice about inappropriate use they can contact the Online Safety Helpline (email: [helpline@saferinternet.org.uk](mailto:helpline@saferinternet.org.uk) or call 0844 3814772). However, employees and managers should not bypass the school/academy's safeguarding procedures.

## **6. The consequences of improper/unacceptable use of social media, the internet and email**

- 6.1. The Executive Headteacher can exercise their right to monitor the use of the school/academy's information systems and internet access. This includes the right to intercept email and the right to delete inappropriate materials where they believe unauthorised use of the school/academy's information system may be taking place, or the system may be being used for criminal purposes, or for storing unauthorised text, imagery or sound.

6.2. Employees must be aware that improper or unacceptable use of the internet or email systems could result in legal proceedings and the use of the school/academy's Disciplinary Procedure. Sanctions will depend upon the gravity of misuse and could result in summary dismissal in some cases.

## **7. Monitoring**

This policy relies on employees acting responsibly and in accordance with the outlined restrictions. Where employees have concerns that a colleague is acting in breach of the outlined restrictions, they are encouraged to raise this with the Headteacher/Principal or Chair of Governors if the concerns relate to the Headteacher/Principal.

If the concern involves possible inappropriate interaction between a colleague and a pupil, referral may be made to the designated senior professional in the school/academy.
