

Our New Creative Learning Journey in Year 6 is.....

What makes Britain Great?

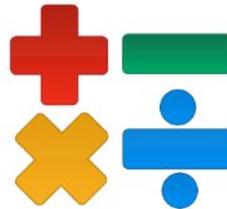

LITERACY, COMMUNICATION AND LANGUAGE

We will be learning about lots of the more complicated aspects of grammar and punctuation: such as the use of colons, semi-colons, active and passive voice and the use of adverbials. We will also be practising spelling patterns and strategies. Our class book for this term is "*Blackberry Blue*" which contains many short new modern fairy tales and we will be basing our writing and drama on this theme.

MATHEMATICS AND COMPUTING

We will be covering a whole host of mathematical concepts this term and the children will be working in their groups on the areas of arithmetic they most need to practise.

We will be using daily problems to encourage to think of the steps they need to take more independently. They will also be learning about data, timetables, geometry including 3D shapes, angles and circles.

UNDERSTANDING THE WORLD

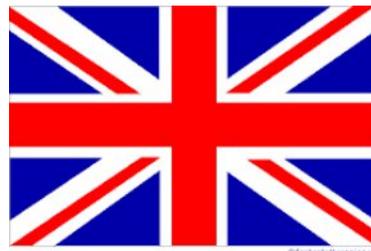

This topic is all about what it means to be British. We will learn about the history of Great Britain and Northern Ireland. Why our flag is the way it is, what it is like to live in different parts of the UK

and we will explore British Values and celebrate the huge variety in our modern culture.

In Science we will be using 'Empiribox' to investigate electricity and circuits.

EXPRESSIVE ARTS AND DESIGN

We will explore the technical aspects of flag drawing and attempt to be precise in our versions.

We will also be making a model of the United Kingdom to use to put on geographical

features.

PHYSICAL EDUCATION

This half term we will be covering gymnastics including counterbalances and large equipment. Please remember to have a named PE kit at school

alweek, especially dark plain jogging bottoms for the colder weather if possible.

HOMEWORK

Each week we will be sending home 3 pieces of homework for the children to work on. One will be based on Grammar and Punctuation and will be related to work done in class. There will also be a spelling list of the spelling pattern we have been working on. Another will be some maths questions to help the children practise the skills they learn in lessons.
